Tableware and cutlery set the mood right if they are rightly chosen. Kishco is an iconic brand since 1950, pioneer in the manufacture of gold, silver plated and stainless steel cutlery and tableware. The brand supplies cutlery and other tableware to leading hotels, institutions and to over 140 high missions abroad. Kishco is now set to reach new horizons by expanding. It has now diversified into importing classic tableware, and exclusive gift items, novelty Pewterware cutlery and unique Pewterware gift items from Italy, Norway and Austria respectively.

Pewter Articles are made of finest Food Grade Tin-Alloy with 95 per cent. Tin is a fascinating material, known since 3500 BC, used widespread for storage of medicines. Austria is the only country worldwide, to develop these unique handcrafted motifs with deep engravings maintaining the highest standards of quality.

Also, a Roman poet well said, "The taste of wine intensifies in the pewter cups." So, now it is your turn to intensify the taste of your wine and ambience by bringing home these Pewterwares.
